Anand Basu

has successfully completed the online, non-credit Specialization

Certified Cloud Security Professional (CCSP)

This certificate is awarded in recognition of the successful completion of the ISC(2) Certified Cloud Security Professional (CCSP) certification course. This comprehensive program provides essential skills in cloud infrastructure security, data protection, and legal compliance, ensuring preparedness for the CCSP exam. Participants gain practical insights into building secure cloud environments and managing complex security operations, advancing their expertise in cloud security.
